

## Chichester Locality Group of Schools

### **Parental Protocol for the Acceptable Use of Photographs and Social Media**

*This protocol for parents and carers has been drawn up by the Chichester Locality schools with full regard and reference to current guidance on Safeguarding and E-safety. It has been agreed and adopted by the Governors at Jessie Younghusband School.*

#### **For the protection of all of our children,**

1. I will not create, send or post any material that will cause offence or needless anxiety to any family or member of the school community or bring the school into disrepute
2. I agree to abide by specific instructions about photographs/videos at a school event in order to protect the children in our care. At Jessie Younghusband the governors have asked that parents do not take photographs or videos during any event or performance, including assemblies as this may involve pictures and images of children whose parents/ carers have not given permission. Photo opportunities will be given at an appropriate time whenever possible.
3. I will not upload photos and videos that include other children, at school events onto any social media.
4. I will inform the school of any material on social media if I feel they may breach this agreement.
5. I will agree to inform the school of anything on social media that is a cause for concern or may be libellous about anyone in the school community.

Agreed by Governors Spring 2016
