

Jessie Younghusband School

Year R - Spring Term - Curriculum Letter

As a team, we would like to say a really BIG thank you for all your generosity and kind wishes for Christmas and the New Year, we all felt very cared for! Thank you and a Happy New Year to you all! We hope you all had a relaxing and peaceful Christmas and enjoyed spending time with family and friends.

Please find below key notes relating to your child's learning from the previous term and what we will be exploring in the first half of the spring term.

Last term's highlights:

The children had a very busy, happy time last term. There were many special highlights, which included:

- Celebrating our school's 50th anniversary.
- Sharing our favourite books and songs.
- Beginning to learn to read and write.
- Finding a penguin whilst exploring our school grounds.
- Making ice pictures and learning about Emperor penguins.
- The Christmas production and Year R angel dance; both of which brought smiles to a great many faces!
- Two successful 'Stay and Play' sessions please look out for photographs from your visit in your child's Learning Journal!

We would also like to thank Theo's dad and a team of firefighters for very kindly coming in to speak to the class about fire safety. From comments we have received from you, the children have shared this learning with their families; you may have even practiced how to 'Stop, Drop, Cover and Roll'! The expressions on the children's faces, when they were trying to knock a tennis ball off a cone with the fire hose, were priceless!

We are sure there were many 'Wow' moments for your child over the holidays; feel free to fill in a 'Wow' sheet to capture their achievements. These sheets enable us to obtain an

understanding of your child's achievements beyond the 'school gate'; they are placed in your child's Learning Journal and the information we gather from them is a valuable source of evidence. 'Wow' sheets are available for you to take from a plastic folder attached to the Year R noticeboard in the cloakroom.

Reminders and Information:

- Please can you check that your child's name is still clearly visible in all their clothing and on all of their belongings (such as snack pots and drink bottles). We are finding that, after a term's worth of washing, some names have faded which makes returning the item to its owner a slower process.
- Please provide them with clothing that they are confident to put on for themselves. We help children to zip up their coat, and turn sleeves in the right way but we are now encouraging them to try to do this themselves, as it helps them to be independent. Therefore, learning to zip up their coat and put their gloves on etc at home would be really useful. Thank you!

- The children are encouraged to only bring <u>one small toy</u> in from home. We ask that
 the toy is not precious, valuable or electrical, and that it can fit into a pocket. Please
 may you kindly remind your child that if they bring in a toy, it is their responsibility to
 look after it.
- Please feel free to write any general comments about your child's reading in their purple comments book. It is also helpful for us to receive some notification of your child having read their book. This could be a simple as the title being recorded and a tick put next to it.
- Yesterday, we sent home a letter detailing arrangements for 'Show and Tell' time for Year R. Please take a look at this and make a note of the date for your child's opportunity to 'Show and Tell'.
- Next week, we will be sending home a note explaining the 'word strips' that we will soon be sending home for your child to practise reading and/or spelling.

Thank you for all of your support helping to settle the children in the morning when they arrive. Now that they are all happy, settled and familiar with the routine, we would like to develop their independence and would appreciate you helping us with this. It would be wonderful if you could let your child come into the classroom, from the cloakroom, on their own. This will enable us to get the children settled to their 'Funky Fingers' activities promptly.

The Spring Term

Please find attached to this letter the topic overview for the first half of this term. Once again this is set out as a jigsaw and shows how the Early Years Foundation Stage curriculum is organised into seven areas of learning and links to our 'Out of this World!' topic which has themes of colour, shape and space running through it. We hope that this will provide you with a more detailed insight into what your child will be learning about over the coming weeks. The children have already been asking questions about space and space travel in response to seeing Tim Peake's launch and we will be building on what they already know.

Please continue to go through your child's phonic folders regularly. We will be concentrating on two letter phonemes, if your child is confident with the single letter phonemes. At this stage children find it difficult to identify phonemes made with two letters like 'ai' as in 'rain', so the more regularly you can point them out in words, the better.

Most children can confidently make the sound in response to a letter; the next step is to help the children to write the letter in response to the sound. This is really important as the children are beginning to break down words into sounds and they need to remember what the letter looks like to write it.

It will support your child's writing if you encourage your child to think of a word with a particular phoneme in the middle and end of a word as well as at the beginning e.g. '**s**' in **s**ock, mu**s**ic, knee**s**. Your child may list words that begin with, say, 't' easily; can they suggest words that end with 't'? Can they hear the 't' sound in the middle of a word?

Please encourage your child to write their surname (family name), as well as their first name. These kinds of activities are most effective if they are fun and carried out for short periods of time such as five minutes here and there. Thank you very much for your support.

We use lots of small boxes, bottle tops, tin foil/wrapping paper, beads etc in our 'creative workshop' and we are always grateful for odds and ends like this that you might usually recycle or throw away, to replenish our supplies. Thank you to everyone who brings in a little and often, as we do have a storage problem!

Below are some suggestions of other ways that you can help your child at home:

Personal, Social & Emotional Development

- Encourage your child to tell you how you can help them when they are making something.
- Encourage your child to help you to match socks or to sort items according to who they belong to.
- Talk to your child about what they like doing and what they are good at doing, e.g. drawing, riding a bike, sharing toys.

Communication & Language

- When tidying up, give your child 2-step instructions to follow, e.g. pick up your shoes and put them in your wardrobe; pick up the red toy and place it in the toy box.
- Play a treasure hunt game your child has to listen to instructions to help them find the next clue.
- When sharing a story with your child,
 ask
 them to explain how they think it
 might end.

Physical Development

- Talk with your child about making healthy food choices; make fruit kebabs or vegetable faces to encourage them to try new foods.
- Help your child to make an obstacle course to practise running as well as crawling under and through things.
- Encourage your child to practise cutting paper and/or use cutters to make shapes from dough.

Literacy

- Read a recipe to your child as you make some food to share
- Encourage your child to write a shopping list to take with you to the shops.
- Play games that encourage your child to use sounds and words.

Mathematics

- Build using boxes or wooden bricks and then encourage your child to use words like 'tall' or 'long' to describe what they have built.
 - Let them sort shoes from smallest to biggest.
 - Play number snap or bingo.
- Explore adding objects to find the total.

Understanding the

World

- Make coloured ice cubes your child use them to paint with.
- Encourage your child to explore mud, sand & rain!
- Help your child to plant seeds in a pot/the garden.
- Let them listen to a story/song on the radio, CD player, app or website.

Expressive Arts &

Design

- Use a range of media to make a picture,
 e.g. paint, paper, wool, wood and fabric.
- Encourage your child to tell you a story about what they are doing when they are dressing up.
- Provide opportunities for your child to practise cutting, sticking and folding pieces of paper.

Finally...

Today, you will be receiving home your child's jam-packed autumn term Learning Journal. We ask that you spend time over the weekend looking at, enjoying and reflecting upon your child's work from last term. We also hope that you will record some comments on the speech bubble (on the next page) to feedback your thoughts on your child's achievements. You may also like to record a sentence or two about what your child enjoyed learning about/doing. What were their highlights?

Please return the Learning Journal by the end of Week 3 so that we can keep it as evidence in school of the work completed during the autumn term. Enjoy!

End of autumn term reflection
