

Jessie Younghusband School

Year R - Spring Term - Curriculum Letter

As a team, we would like to say a really BIG thank you for all your generosity and kind wishes for Christmas and the New Year, we all felt very cared for! Thank you and a Happy New Year to you all! We hope you all had a relaxing and peaceful Christmas and enjoyed spending time with family and friends.

Please find below key notes relating to your child's learning from the previous term and what we will be exploring in the spring term.

Last term's highlights:

The children had a very busy, happy time last term. There were many special highlights, which included:

- Getting to know each other and beginning to build friendships;
- Sharing our favourite books and songs;
- Beginning to learn to read and write;
- Finding a penguin on the field;
- Learning about Emperor penguins;
- The Christmas production and Year R angel dance; both of which brought smiles to many faces!

We would also like to thank the team of fire-fighters for very kindly visiting school to speak to the class about fire safety. I know that we have some budding fire fighters in our class, so this really was the icing on the cake for them. The expressions on the children's faces when they were trying to knock a cone over with the spray of water from the fire hose, and sitting in the fire engine, were priceless!

Wow Moments

We have been overwhelmed with your 'Wow moments' in class. I take the time each day to share the children's achievements with the whole class and we give them their very own round of applause. The children are so proud to have achieved something that is personal to them. I am sure there were many 'Wow moments' for your child over the holidays; feel free to fill in a 'Wow' sheet to capture their achievements. These sheets enable us to obtain an understanding of your child's achievements beyond the 'school gate'; they are placed in your child's Learning Journal and the information we gather from them is a valuable source of evidence. 'Wow' sheets are available for you to take from a plastic folder attached to the Year R noticeboard in the cloakroom.

Reminders and Information:

- Please can you check that your child's name is still clearly visible in all their clothing and on all of their belongings (such as snack pots and drink bottles). We are finding that, after a term's worth of washing, some names have faded which makes returning the item to its owner a slower process.
- Please provide them with clothing that they are confident to put on for themselves. We help children to zip up their coat, and turn sleeves in the right way but we are now encouraging them to try to do this themselves, as it helps them to be independent. Therefore, learning to zip up their coat and put their gloves on etc at home would be really useful. Thank you!

- Please feel free to write any general comments about your child's reading in their purple comments book. It is also helpful for us to receive some notification of your child having read their book. This could be as simple as the title being recorded and a tick put next to it.
- I have sent home a letter detailing arrangements for 'Show and Tell' time for Year R. Please take a look at this and make a note of the date for your child's opportunity to 'Show and Tell'.

Thank you for all of your support helping to settle the children in the morning when they arrive. They are all happy, settled and familiar with the routine which is fantastic being only one term in. Please remember that all messages, unless incredibly urgent, should be passed to the member of staff in the cloakroom area, rather than coming in to the classroom. I have a fantastic team supporting me, who often know the answers to your questions. This enables us to get the children settled to their 'Funky Fingers' activities promptly and without disturbance. I am in the cloakroom area on a Tuesday and Friday morning, but if you would like to talk to me in private, you are of course welcome to make an appointment to see me after school or a telephone appointment.

The Spring Term

Please find the topic overview for this term on the JYS website under: Classes>Reception Class. Once again this is set out as a jigsaw, and shows how the Early Years Foundation Stage curriculum is organised into seven areas of learning and links to our 'Out of this World!' topic which has themes of colour, shape and space running through it. We hope that this will provide you with a more detailed insight into what your child will be learning about over the coming weeks. Please remember to continue to check the VLE for snap-shots of our weeks learning.

Please continue to go through your child's phonic folders regularly. We will be concentrating on two letter phonemes, if your child is confident with the single letter phonemes. At this stage, children can find it tricky to identify phonemes made with two letters like 'ai' as in 'rain', so the more regularly you can point them out in words, the better. 'Robot talking' is equally as important, both hearing it and saying it themselves. Play a game where you robot talk a word and your child has to guess what you are saying e.g. 'm-o-p.' Swap role, see if they can robot talk you a word for you to guess (they may need some ideas of simple words to start with such as cup, cat, mat, rug, dog, dug... rather than snowman!)

If your child has not yet mastered it, please encourage your child to write their first name in cursive using the correct pencil grip.

The next step is to help the children to write the letter in response to the sound, to make words. This is really important as the children are beginning to break down words into sounds and they need to remember what the letter looks like to write it (please use the sound mat given out at the phonics meeting to support your child's writing at home).

These kinds of activities are most effective if they are fun and carried out for short periods of time such as five minutes here and there. Thank you very much for your support.

We use lots of small boxes, bottle tops, tin foil/wrapping paper, beads etc in our 'creative workshop' and we are always grateful for odds and ends like this that you might usually recycle or throw away, to replenish our supplies. Please keep an eye out for the sign we have hanging on the pillar in the cloakroom changing as it indicates if we are in need of more supplies.

Below are some suggestions of other ways that you can help your child at home:

Personal, Social & Emotional Development <ul style="list-style-type: none"> • Encourage your child to tell you how you can help them when they are making something. • Encourage your child to help you to match socks or to sort items according to who they belong to. • Talk to your child about what they like doing and what they are good at doing, e.g. drawing, running, riding a bike, sharing toys. 	Literacy <ul style="list-style-type: none"> • Read a recipe to your child as you make some food to share. • Encourage your child to write a shopping list to take with you to the shops. • Play letter games that encourage your child to use sounds and words.
Communication & Language <ul style="list-style-type: none"> • When tidying up, give your child 2-step instructions to follow, e.g. pick up your shoes and put them in your wardrobe; pick up the red toy and place it in the toy box. • Play a treasure hunt game – your child has to listen to instructions to help them find the next clue. • When sharing a story with your child ask them to explain how they think it might end. 	Mathematics <ul style="list-style-type: none"> • Build using boxes or wooden bricks and then encourage your child to use words like 'tall' or 'long' to describe what they have built. <ul style="list-style-type: none"> • Let them sort shoes from smallest to biggest. • Play number snap or bingo. • Explore adding objects to find the total.
Physical Development <ul style="list-style-type: none"> • Talk with your child about making healthy food choices; make fruit kebabs or vegetable faces to encourage them to try new foods. • Help your child to make an obstacle course to practise running as well as crawling under and through things. • Encourage your child to practise cutting paper and/or use cutters to make shapes from dough. 	Understanding the World <ul style="list-style-type: none"> • Make coloured ice cubes and let your child use them to paint with. • Encourage your child to explore mud, sand & rain! • Help your child to plant seeds in a pot/the garden. • Let them listen to a story/song on the radio, CD player, app or website.
	Expressive Arts & Design <ul style="list-style-type: none"> • Use a range of media to make a picture, e.g. paint, paper, wool, wood and fabric. • Encourage your child to tell you a story about what they are doing when they are dressing up. • Provide opportunities for your child to practise cutting, sticking and folding pieces of paper.

Finally...

You will be receiving home your child's jam-packed autumn term Learning Journals. We ask that you spend time over the weekend looking at, enjoying and reflecting upon your child's work from last term. We also hope that you will record some comments on the speech bubble (on the next page) to feedback your thoughts on your child's achievements. You may also like to record a sentence or two about what your child enjoyed learning about/doing. What were their highlights? These speech bubbles will be stuck into your child's journal when they are returned to school.

Please return the Learning Journal by Monday 13th January so that we can keep it as evidence in school of the work completed during the autumn term. Enjoy!

Thank you for your continued support and best wishes for a very happy 2020.

Mrs Appleby

End of autumn term reflection
