

Dear families

This Friday, 26th February will be the next in the series of our monthly Plastic Free Fridays.

We are asking all the children who bring a packed lunch to school to make sure that there is no single-use plastic packaging in their lunch box – so no disposable bottles, drink cartons, crisp packets, yoghurt pots etc! Sandwiches and other lunch box contents could be put into a reusable container, such as Tupperware, or wrapped in tin foil (which can be washed and then reused), rather than being wrapped in cling film. Please also make sure that your child has a reusable water bottle (such as a normal school water bottle) with them, rather than a single-use plastic bottle.

We hope this will help us all to think about how we can reduce the amount of plastic pollution that is endangering our wildlife and environment, to be extra vigilant about littering and to make an active choice to avoid single-use plastics wherever possible.

Thank you

Mrs Ritchie
