

The JYS Eco Code

September 2020

We will respect and take care of all living things in our school grounds - humans, animals and plants.

We will **'take a minute before we bin it'** by:

- reusing and recycling as much as we can;
- composting fruit and vegetable waste as much as we can.

We will **create a clean and tidy school** by:

- always putting the correct rubbish in the right bins.

We will **save water and energy** by:

- turning off lights and taps when they're not needed;
- closing doors and windows to keep the heat in during cold times.

We will **keep healthy** by:

- walking, cycling and scooting to school as much as possible;
- exercising regularly;
- being healthy in our food choices and drinking plenty of water;
- growing our own fruit and vegetables.

Make a small change ~ create a big difference!

By everyone making small changes, together we will protect our planet!
